2018 SAU Program Directors, Coordinators & Academicians Meeting

February 8 – 10, 2018
Miami Marriott Dadeland | Miami, Florida

Program Committee:

Gary J. Faerber, MD
University of Utah Urology

Louis R. Kavoussi, MD
Hofstra Northwell School of Medicine

JOINTLY PROVIDED BY:
Creighton University Health Sciences Continuing Education and the Society of Academic Urologists
Welcome! I am excited that Miami, Florida is the venue for the 2018 SAU Program Directors, Coordinators & Academicians Meeting. This is our second annual educational meeting sponsored by the SAU. The reason we host the SAU Program Directors, Coordinators & Academicians Meeting is so that we can train the next generation of urologists in this country. The ACGME challenges us every day to conceive of ways to incorporate the changing landscape of medicine into practical, bite-sized bits for our trainees. Although it seems that the principles of teaching never change, the evolution in the expectations of teaching have - and will continue to change. The world has shifted, as most things do, with the change in and application of knowledge and technologies. It is an exciting – and exhausting time. Change always involves a bit of both.

We still have to manage residents, give them feedback, guide them with positive words, and in some cases, remediate them along the way. This type of work requires a great team! We will all benefit not only from sharing educational knowledge, but from the networking and rich discussion that has always been a significant ingredient in these meetings. By listening to our colleagues, who have perspectives that might be different from our own, we will be better able to understand how the Next Accreditation System (NAS) expands upon the Competencies, providing standards for all residents, while still allowing for individual professional development.

I want to thank Louis R. Kavoussi, MD and Gary J. Faerber, MD for volunteering to be the program committee co-chairs for the 2018 meeting. They have developed a tremendous curriculum for us all to learn about the new concepts the ACGME has organized for us to better train the future urologists of our country. Lou and Gary have based their curriculum on the Next Accreditation System (NAS), which continually changes.

Some of the topics include:

- New Common Program Requirements for both General and Pediatric Urology
- Inner Workings of the RRC: Procedures and Processes
- Resident Remediation
- Possible Changes to the Current Training Model
- Changing the Current AUA Match
- Attracting Women and Minorities in Urology

During the educational workshop there will be many other topics for discussion (see the program).

I would also like to thank Heather Swanson and Monica Bertz of WJ Weiser & Associates who have been critically instrumental in organizing this meeting. Verna Roller, C-TAGME and Lynn Vass, C-TAGME are the inimitable co-chairs of ACURE (the Association of Coordinators for Urology Education).

I look forward to meeting all of the urology program directors, coordinators and other academic urologists this year.

Have a great meeting!

Byron D. Joyner, MD, MPA
2017-2018 SAU President

OFFICERS

Presodoren
Byron D. Joyner, MD, MPA
University of Washington School of Medicine

President-Elect
Badrinath R. Konety, MD, MBA
University of Minnesota

Secretary
Louis R. Kavoussi, MD
Hofstra Northwell School of Medicine

Treasurer
David F. Jarrard, MD
University of Wisconsin

Past President
Stephen Y. Nakada, MD, FACS
University of Wisconsin- School of Medicine and Public Health

Members at Large
Gary J. Faerber, MD
University of Utah Urology
Brian R. Matlaga, MD, MPH
Johns Hopkins University
J. Stuart Wolf, Jr., MD, FACS
University of Texas At Austin

REPRESENTATIVES

Representative to the ABU
Martha K. Terris, MD, FACS
Augusta University

AUA Representative
Chandru P. Sundaram, MD, FACS
Indiana University Medical Center

RRC Representative
Chad W. M. Ritenour, MD
Emory University

Representative to the ACS
Raj S. Pruthi, MD, MHA, FACS
University of North Carolina School of Medicine

AAMC Representative
Mark L. Jordan, MD, FACS, FRCS(C)
University of California (Irvine)

COMMITTEES

Ad Hoc Survey Review Committee
Raj S. Pruthi, MD, MHA, FACS (Chair)

ByLaws Committee
Daniel H. Williams, IV, MD (Chair)

Education Committee
Gary J. Faerber, MD (Co-Chair)
Louis R. Kavoussi, MD (Co-Chair)

Geriatrics
Tomas L. Griebling, MD, MPH (Chair)

Health Policy
Patrick H. McKenna, MD, FAAP, FACS (Committee Chair)
James M. Dupree, IV, MD, MPH
John L. Gore, MD, MS
Alec S. Koo, MD
Deborah J. Lightner, MD
Jay A. Motola, MD, FACS
Christopher S. Saigal, MD
Willie Underwood, III, MD, MS, MPH
Byron D. Joyner, MD, MPA, FAAP, FACS (Ex-Officio Member)

Membership Committee
Alan J. Wein, MD, PhD (hon) (Chair)
Louis R. Kavoussi, MD

Nominating Committee
Stephen Y. Nakada, MD, FACS (Chair)
Badrinath R. Konety, MD, MBA
Thomas Turk, MD

Program Committee
Badrinath R. Konety, MD, MBA (Chair)
E. Jason Abel, MD, FACS (Co-Chair)
Lee Richstone, MD (Co-Chair)

Research Committee
David F. Jarrard, MD (Chair)

VA Liaison
Philipp Dahm, MD, MHSc, FACS (Chair)

AUA Education Council
Mark L. Jordan, MD, FACS, FRCS(C) (AUA Representative)

AUA Health Policy Council
Patrick H. McKenna, MD, FAAP, FACS (Representative to the AUA)

AUA Practice Management Committee
Chad W. M. Ritenour, MD (Representative to the AUA)

Austin, TX
EDUCATIONAL NEEDS

Urological education continues to evolve and, as such, continuing education is required for program directors and program administrators. Since 2011, the Next Accreditation System (NAS) has managed to introduce several new requirements, such as the common core requirements as well as a possible restructuring of the intern year for incoming urology trainees. Most program directors and coordinators are unfamiliar with these developments and will need help in understanding and modifying the structure of their residency training programs.

The development, evaluation, and assessment processes for resident training in urology requires continuous learning and involves a team approach, including faculty, residents and fellows, other healthcare colleagues, and administrators. Program directors and program coordinators are not only responsible for teaching these stakeholders, but they need to be updated on the relevant material for improving their programs. The SAU Program Directors, Coordinators & Academicians Meeting is a forum for networking and sharing best national practices. Each member of the team needs to be a “learner” in these evolving processes and to understand the concepts behind and discover practical and thoughtful tools to develop a dynamic program for their trainees approach. Program administrators are essential to understanding the concepts and assist in implementing the new policies and concepts.

Collaborative discussion among the attendees will foster an understanding how to develop an individualized approach to the implementation of best practices and flexibility for future advancements.

EDUCATIONAL OBJECTIVES

At the conclusion of the 2018 SAU Program Directors, Coordinators & Academicians Meeting attendees should be able to:

1. Review upcoming changes in common program requirements as well as internship structure and share implementation strategies to strengthen urologic training.
2. Evaluate behavioral scenarios encountered with residents, staff and faculty that provide a working framework to address and resolve issues at participant's home institutions.
3. Describe tools to facilitate 360 degree relationships with stakeholders including administrators, colleagues, clinicians and trainees.
4. Appraise the current interview as well as match systems and discuss modifications for process improvement.
5. Analyze challenges in urology in attracting students, particularly underrepresented minorities including women and formulate schema to solve this issue.
6. Assess trends in the practice of urology that should impact current and future practices in urologic education.

ACCREDITATION

Category 1
Creighton University Health Sciences Continuing Education designates this live activity for a maximum of **17.25 AMA PRA Category 1 Credits™**. Physicians should claim only credit commensurate with the extent of their participation in this activity.

AAPA accepts AMA category 1 credit for the PRA from organizations accredited by ACCME.

Accreditation Statement

In support of improving patient care, this activity has been planned and implemented by Creighton University Health Sciences Continuing Education (HSCE) and the Society of Academic Urologists. Creighton University Health Sciences Continuing Education (HSCE) is jointly accredited by the Accreditation Council for Continuing Medical Education (ACCME), the Accreditation Council for Pharmacy Education (ACPE), and the American Nurses Credentialing Center (ANCC), to provide continuing education for the healthcare team.

Other healthcare professionals will receive a Certificate of Attendance. For information on the applicability and acceptance of Certificates of Attendance for educational activities certified for **AMA PRA Category 1 Credit™** from organizations accredited by the ACCME, please consult your professional licensing board.

General Disclaimer

The statements and opinions contained in this program are solely those of the individual authors and contributors and not of the Society of Academic Urologists. The appearance of the advertisements is not a warranty, endorsement, or approval of the products or services advertised or of their effectiveness, quality, or safety. The content of this publication may contain discussion of off-label uses of some of the agents mentioned. Please consult the prescribing information for full disclosure of approved uses. The Society of Academic Urologists disclaims responsibility for any injury to persons or property resulting from any ideas or products referred to in the abstracts or advertisements.

Special Assistance

We encourage participation by all individuals. If you have a disability, advance notification of any special needs will help us better serve you. Call (847) 517-7225 if you require special assistance to fully participate in the meeting.

2018 SAU Program Directors, Coordinators & Academicians Meeting 4
GENERAL MEETING INFORMATION

Registration/Information Desk Hours
Location: Grand Ballroom Pre-function
Thursday, February 8, 2018  7:00 a.m. – 5:00 p.m.
Friday, February 9, 2018  7:00 a.m. – 5:00 p.m.
Saturday, February 10, 2018  7:00 a.m. – 5:30 p.m.

Exhibit Hall Hours
Location: Salon A
Friday, February 9, 2018  10:00 a.m. – 6:30 p.m.
Saturday, February 10, 2018  7:00 a.m. – 11:00 a.m.

Registration Fee Includes:
• Entrance to educational sessions
• Breakfasts
• One ticket to the welcome reception
• Program materials

Thursday Breakfast
Time:  7:15 a.m. - 8:00 a.m.
Location:  Grand Ballroom Pre-function

Friday Breakfast
Time:  7:15 a.m. - 8:00 a.m.
Location:  Grand Ballroom Pre-function

Saturday Breakfast
Time:  7:15 a.m. - 8:00 a.m.
Location:  Salon A

Welcome Reception
Date:  Friday, February 9, 2018
Time:  5:00 p.m. - 6:30 p.m.
Location:  Salon A
Attire:  Business Casual
One ticket to the Welcome Reception is included in your registration fee. Additional tickets for the Friday evening Welcome Reception can be purchased for $50 each.

ATTENDEE PROGRAMMING HOURS

Program Coordinators
Thursday, February 8, 2018  8:00 a.m. – 11:15 a.m.
Friday, February 9, 2018  1:00 p.m. – 5:00 p.m.

Program Directors
Friday, February 9, 2018  1:00 p.m. – 5:00 p.m.
Saturday, February 10, 2018  1:00 p.m. – 5:30 p.m.

Program Directors & Coordinators
Thursday, February 8, 2018  1:00 p.m. – 5:00 p.m.
Friday, February 9, 2018  8:00 a.m. – 11:40 a.m.
Saturday, February 10, 2018  8:00 a.m. – 11:15 a.m.
2018 SAU Program Directors, Coordinators & Academicians Meeting

February 8 - 10, 2018
All sessions will be located in Salon BCD unless otherwise noted. Speaker and times are subject to change.

*Not CME Accredited*
**Program Schedule**

### Remediation and Dismissal: What to do, When to do it, and Who to Turn to for Guidance

- **Time:** 11:15 a.m. - 11:30 a.m.
- **Speaker:** Lee Richstone, MD

### Society of Women in Urology (SWIU) Update*

- **Time:** 11:30 a.m. - 11:40 a.m.
- **Speaker:** Simone Thavaseelan, MD
- *Not CME Accredited*

### Lunch Break On Own

- **Time:** 11:40 a.m. - 1:00 p.m.

### Concurrent Sessions Begin

#### Concurrent Session 1 of 2

- **Time:** 1:00 p.m. - 5:00 p.m.

##### Program Directors Session

- **Time:** 1:00 p.m. - 1:15 p.m.
  - **Organized Urology: Table of Organization**
  - **Speaker:** Stephen Y. Nakada, MD, FACS

- **Time:** 1:15 p.m. - 1:30 p.m.
  - **SAU Update**
  - **President:** Byron D. Joyner, MD, MPA

- **Time:** 1:30 p.m. - 1:45 p.m.
  - **RRC Update**
  - **Speaker:** Chad W. Ritenour, MD

- **Time:** 1:45 p.m. - 2:00 p.m.
  - **ABU Update**
  - **Speaker:** Stephen Y. Nakada, MD, FACS

- **Time:** 2:00 p.m. - 2:15 p.m.
  - **AUA Office of Education**
  - **Speaker:** Victor W. Nitti, MD

- **Time:** 2:15 p.m. - 2:30 p.m.
  - **What the AUA Science and Quality Council Offers to Trainees and Faculty**
  - **Speaker:** J. Stuart Wolf Jr., MD, FACS

- **Time:** 2:30 p.m. - 3:00 p.m.
  - **Break**

- **Time:** 3:00 p.m. - 3:30 p.m.
  - **Developing a Successful Medical Student Curriculum**
  - **Speaker:** William C. Hulbert, MD

- **Time:** 3:30 p.m. - 4:00 p.m.
  - **The Intern Year: Bracing for Change**
  - **Speaker:** Chau D. Ritenour, MD

- **Time:** 4:00 p.m. - 4:30 p.m.
  - **When, Why and How to Expand a Program**
  - **Speaker:** Michael Coburn, MD, FACS

- **Time:** 4:30 p.m. - 4:45 p.m.
  - **Optimizing the Impact of Visiting Professors**
  - **Speaker:** David A. Bloom, MD

- **Time:** 4:45 p.m. - 5:00 p.m.
  - **Q&A Discussion**

#### Concurrent Session 2 of 2

- **Time:** 1:00 p.m. - 5:00 p.m.

##### Program Coordinators Breakout Session*

- **Time:** 1:00 p.m. - 1:20 p.m.
  - **Time Management**
  - **Speaker:** Beth Musser

- **Time:** 1:20 p.m. - 1:40 p.m.
  - **Walking in the Shoes of a Resident**
  - **Speaker:** Michael A. Ahdoot, MD

- **Time:** 1:40 p.m. - 2:00 p.m.
  - **Keeping Sane: Wellness Advice**
  - **Speaker:** Verna Roller, C-TAGME

- **Time:** 2:00 p.m. - 2:20 p.m.
  - **Paperwork: Evaluation Forms**
  - **Speaker:** Verna Roller, C-TAGME

- **Time:** 2:20 p.m. - 2:30 p.m.
  - **Q&A Discussion**

- **Time:** 2:30 p.m. - 3:00 p.m.
  - **Break**

- **Time:** 3:00 p.m. - 4:30 p.m.
  - **Working Group Topics**
  - **Groups Rotate Through Sessions:**
    - Each Breakout Session is 30 Minutes
    - *Please find rotation on back of Attendee Badge*
  - **Building a Virtual Network for PC’s**
    - **Location:** Datran I
    - **Moderator:** Katie Garcia
  - **Trials, Tribulations, Expectations and Rewards of Being a PC**
    - **Location:** Datran II
    - **Moderator:** Jenny Alff
  - **Discussion: Attracting Women and Minorities into Urology**
    - **Location:** Datran III
    - **Moderators:** Sylvia Iona, Lynn Vass

- **Time:** 4:30 p.m. - 5:00 p.m.
  - **Report out of Groups/Discussion**
  - **Location:** Datran II

### Concurrent Sessions End

- **Time:** 5:00 p.m. - 6:30 p.m.

#### Welcome Reception

- **Location:** Salon A

### Saturday, February 10, 2018

#### Overview

- **Time:** 7:00 a.m. - 5:30 p.m.
  - **Registration/Information Desk Open**
  - **Location:** Grand Ballroom Pre-function

- **Time:** 7:00 a.m. - 11:00 a.m.
  - **Exhibit Hall Open**
  - **Location:** Salon A

#### General Session

- **Time:** 8:00 a.m. - 11:15 a.m.
  - **Program Directors and Coordinators Session**

- **Time:** 8:00 a.m. - 8:20 a.m.
  - **Simulation 2018: Opportunities and Obstacles**
  - **Speaker:** Robert M. Sweet, MD

- **Time:** 8:20 a.m. - 8:35 a.m.
  - **Marketing and Packaging Your Program**
  - **Speaker:** David F. Penson, MD, MPH

- **Time:** 8:35 a.m. - 9:30 a.m.
  - **Negotiating: Evolving Strategies**
  - **Speaker:** Stuart Diamond, JD, MBA
PROGRAM SCHEDULE

9:30 a.m. - 10:00 a.m. Leadership Opportunities in Your Institution and Beyond
Speakers: Deborah J. Lightner, MD
J. Stuart Wolf Jr., MD, FACS

10:00 a.m. - 10:30 a.m. Break

10:30 a.m. - 10:45 a.m. Optimizing APPs in a Residency Training Program
Speaker: Gary E. Lemack, MD

10:45 a.m. - 11:15 a.m. Debate: Two-Tiered System in Urology - Is it Time?
Speakers: David A. Bloom, MD
Louis R. Kavoussi, MD

11:15 a.m. - 1:00 p.m. Lunch Break On Own

1:00 p.m. - 5:30 p.m. Discussion Groups for Program Directors
Groups Rotate through Sessions: Each Breakout Session is 45 Minutes
*Please find rotation on back of Attendee Badge

What Educational Tools Are Needed?
Location: Salon BCD

How to Improve Upon the Current Match?
Location: Datran II
Moderators: Michael Coburn, MD, FACS
Blake D. Hamilton, MD
Chad W. Ritenour, MD

How Do We Attract Women and Minorities into Urology?
Location: Datran III
Moderators: Byron D. Joyner, MD, MPA
Jessica E Kreshover, MD, MS
Cheryl T. Lee, MD
Martha K. Terris, MD, FACS

4:00 p.m. - 5:30 p.m. Report Out of Groups/Discussion

5:30 p.m. Adjourn
In accordance with the ACCME Accreditation Criteria, Creighton University Health Sciences Continuing Education, as the accredited provider of this activity, must ensure that anyone in a position to control the content of the educational activity has disclosed all relevant financial relationships with any commercial interest. Therefore, it is mandatory that both the program planning committee and speakers complete disclosure forms. Members of the program committee were required to disclose all financial relationships and speakers were required to disclose any financial relationship as it pertains to the content of the presentations. The ACCME defines a ‘commercial interest’ as “any entity producing, marketing, re-selling, or distributing health care goods or services consumed by, or used on, patients”. It does not consider providers of clinical service directly to patients to be commercial interests. The ACCME considers ‘relevant’ financial relationships as financial transactions (in any amount) that may create a conflict of interest and occur within the 12 months preceding the time that the individual is being asked to assume a role controlling content of the educational activity.

The requirement for disclosure is not intended to imply any impropriety of such relationships, but simply to identify such relationships through full disclosure and to allow the audience to form its own judgments regarding the presentation.

Michael A. Ahdoot, MD

Michael Ahdoot is a Urology resident at the University of Miami. Prior to residency he attended the University of California, Los Angeles where he graduated with degrees in Biology and American Literature, with departmental and institutional honors. He then attended the Stanford School of Medicine where he spent an additional year at the Stanford School of Design where he developed an orthopedic medical device that is now in international distribution. He is the author of multiple scientific publications in multiple peer-reviewed journals and plans to practice urologic oncology in the future and continue his passion for medical device development.

David A. Bloom, MD

Dr. David A. Bloom is currently chair of the Department of Urology and served as Chief of Pediatric Urology in the Department of Surgery from 1984-2001.

Dr. Bloom’s clinical and scholarly interests include genitourinary reconstruction, lower urinary tract dysfunction, genit al anomalies, neurogenic bladder, laparoscopy and medical history. During his time at Michigan, he has published more than 160 papers and 68 book chapters, and has served on the editorial boards of the Journal of Pediatric Urology, British Journal of Urology, Urology, Contemporary Urology, and the Journal of Endourology, and has been a consultant for Stedman’s Medical Dictionary.

Dr. Bloom earned his Medical Degree from the State University of New York at Buffalo in 1971. After serving an internship in surgery at UCLA, he completed dual residencies in surgery and urology, both at UCLA, in addition to a fellowship in pediatric urology at the Institute of Urology of the University of London. In 1980, Dr. Bloom was appointed assistant professor of surgery at the Uniformed Services University of Health Sciences, and staff urologist at the Walter Reed Army Medical Center in Washington, D.C. He was promoted to associate professor of surgery and named chief of pediatric urology at Walter Reed in 1983. He left the army as Lt. Col.

Dr. Bloom has memberships and held offices in 26 professional societies, including chair of the American Academy of Pediatrics Section on Urology, historian for the Society for Pediatric Urology, and secretary-treasurer and president for the American Association of Genitourinary Surgeons. He has completed a six-year term as trustee of the American Board of Urology and a three-year term on the Board of Directors of the American Board of Medical Specialties. He is a governor of the American College of Surgeons.

Erik P. Castle, MD, FACS

Erik P. Castle, MD, holds the academic rank of professor of urology, Mayo Clinic College of Medicine and serves as the program director of the urology residency at Mayo Clinic Arizona. He joined the staff of Mayo Clinic in 2007. Dr. Castle earned his BS from the University of Texas at Austin and his MD from University of Texas, Southwestern Medical School. He completed his residency at the University of Kansas Medical Center. He subsequently completed a fellowship in laparoscopic and reconstructive urologic surgery at Mayo Clinic in Arizona.

Dr. Castle’s surgical expertise includes minimally invasive urologic oncology including robot-assisted radical cystectomy, prostatectomy, retroperitoneal lymph node dissection and partial nephrectomy. Dr. Castle’s research interests include prostate cancer, bladder cancer and kidney cancer. His current research concentrates on biomarker development projects for bladder cancer. In this realm, he is a site investigator for a National Institutes of Health Research Project Grant (RO1) clinical trial.

He is frequently invited to give presentations on his research both domestically and internationally and has authored numerous journal articles, book chapters, abstracts and other written publications.

Michael Coburn, MD, FACS

Dr. Coburn is Professor and Chairman of the Scott Department of Urology at Baylor College of Medicine in Houston, Texas. He is a graduate of Cornell University, and obtained his Medical Degree with honors from the New York University School of Medicine in 1982. He completed his residency at Baylor College of Medicine, and then pursued fellowship training also at Baylor as an American Foundation for Urologic Disease Scholar. Dr. Coburn served as Chief of Urology at Ben Taub Hospital from 1990 until 2012, focusing his clinical and research interests in the areas of urologic trauma, genital and urethral reconstructive surgery, and sexual and reproductive dysfunction. Dr. Coburn serves as the Urology Representative on the ACS Committee on Trauma, where he also Chairs the Advocacy Pillar and is a member of the COT Executive Committee. Dr. Coburn is President of the Society of Genito-Urinary Reconstructive Surgeons. He is immediate past-Chair of the ACGME Residency Review Committee for Urology. Dr. Coburn is Chair of the Faculty Group Practice at Baylor College of Medicine. He is the recipient of many awards for his educational and clinical work, including the Robertson Presidential Educator Award for lifetime achievement in educational leadership at Baylor College of Medicine.

Benjamin Davies, MD

Benjamin Davies, MD, is an Associate Professor of Urology at the University of Pittsburgh School Of Medicine. He is the Chief of the Urology Section at the Shadyside/Hillman Cancer Center, and also the Director of the Urologic Oncology Program. Dr. Davies graduated from Columbia College with a degree in European History followed by obtaining a Medical Degree at Mount Sinai Medical School in New York City. Following surgical and urologic residencies at the University of Pittsburgh he did a 2-year post-doctoral fellowship in urologic oncology at the University of California, San Francisco.

Since that time, Dr. Davies has published over 70 peer-reviewed articles centering on prostate cancer outcomes and basic science research in genomics. His clinical practice is focused on robotic prostatectomies, bladder cancer surgery including male/female neobladder reconstruction, kidney cancer surgery including robotic partial nephrectomies and testicular cancer surgery. Additionally, Dr. Davies recently started a MRI Fusion program.

Dr. Davies was recently appointed to a faculty position in the Center for Pharmaceutical Policy in the Health Policy Institute. His interests have focused on drug shortages and pharmaceutical availability for patients. He has a long-standing interest in behavioral economics within the pharmaceutical industry. His work has been in the New England Journal of Medicine and elsewhere.

Stuart Diamond, JD, MBA

Stuart Diamond, JD, MBA is a Pulitzer Prize-winning journalist (NY Times), professor, attorney, entrepreneur and author. His negotiation course has been the most sought-after by students over 20 years at the top-rated Wharton School of Business. His widely acclaimed book on negotiation, Getting More, was a New York Times best-seller and has been used by Google to train 12,000 employees worldwide. The book has sold more than 1.3 million copies, has been translated into 26 languages and has been named by The Wall Street Journal’s career site as the #1 book for read for one’s career. His negotiation model has been adopted by U.S. Special Operations for the training of Special Forces, Green Berets, Navy SEALs, U.S. Marines and other units. He has advised and taught managers and executives in 60 countries, from country presidents to school children and parents. He has chaired a listed high-tech company, worked on Wall Street and headed companies in aviation, medical services and agriculture. He has a law degree from Harvard and a MBA from Wharton.
Gary J. Faerber, MD
Dr. Gary J. Faerber received his MD from Temple University in Philadelphia in 1984. He then completed his residency in urology at the University of Michigan in 1989. He remained on faculty at Michigan, rose to the academic rank of Professor, and was the Edward J. McGuire Research Professor. He was the Residency Program Director from 2003-2013 and Associate Chair of Education from 2010-2016. He recently joined the faculty as Professor of Urology in the Department of Surgery at the University of Utah. He is currently the Medical Director of the South Jordan Health Center and Surgeon Lead for Ambulatory Surgery Services of the University of Utah Health System.

His main area of clinical interest is in urinary calculus disease and has authored over 120 peer-reviewed manuscripts and 17 chapters and has been an invited speaker nationally and internationally. He also has an interest in medical education for which he has been recognized nationally while serving on the Resident Education Committee of the American College of Surgeons.

Kirsten L. Greene, MD, MS
Kirsten Greene is an Associate Professor in the Department of Urology at the University of California San Francisco. She serves at the Urology Program Director and is the Associate Chair for Education, overseeing all urology curriculum in the UCSF School of Medicine. Dr. Greene did her residency at UCSF, received a Masters of Clinical Research, and has been on faculty in the department focusing on urologic oncology and minimally invasive surgical approaches. She is the Vice Chair and Chief of Urology at the San Francisco VA Medical Center.

Blake D. Hamilton, MD
Dr. Hamilton grew up in Issaquah, Washington and received a degree in Mathematics from Brigham Young University. He attended medical school at UC San Francisco, followed by urology residency at the University of Utah and fellowship in endourology/laparoscopy at the Cleveland Clinic. He joined the faculty at the University of Utah in 1997, and was a pioneer of laparoscopic and minimally invasive urologic surgery in the Intermountain West. He currently has a practice that focuses on minimally invasive renal surgery at the University Hospital and the Salt Lake VA Medical Center. He also wears administrative hats as Urology Residency Program Director, Chair of the University of Utah Medical Group’s Practice Management, and Chair of the Integrated Clinical and Business Operations for the University of Utah.

Misop Han, MD, MS
Dr. Misop Han is David Hall McConnell Professor of Urology and Oncology at the Johns Hopkins Hospital. Dr. Han is a board-certified urologist whose main clinical focus is in urological oncology. He received his undergraduate and Medical Degrees at Johns Hopkins University. He received his residency training at Brady Urological Institute at Johns Hopkins Hospital. He currently serves as the Program Director for Urology Residency Program and Physician Advisor at Brady.

William C. Hulbert, MD
Born in Elmira, New York in 1954, Dr. Hulbert’s post-secondary education was at St. Bonaventure University, receiving a BS in Biology in 1975. He graduated from the University of Rochester with his MD degree in 1979, and his early interest in medical education was acknowledged at that time with the receipt of the Upjohn Achievement Award for Medical Education. After spending two years in general surgery training at the University of Louisville, he relocated to Rochester, New York for his urology residency, followed by a one-year pediatric urology fellowship at the Children’s Hospital of Philadelphia under the auspices of Dr. John Duckett and Dr. Howard Snyder III. Moving to Little Rock, Arkansas in 1986, he was Chief of the Division of Urology at the Arkansas Children’s Hospital for three years. Thereafter, he returned to the University of Rochester to partner on faculty in the Division, then Department, of Urology with his long-time mentor, Dr. Ron Rabinowitz. He has been the Urology Residency Program Director since 1994 and Professor of Urology and Pediatrics since 2013. In addition, he is in charge of the urology curriculum for the University of Rochester School of Medicine and Dentistry.

Other professional duties and honors have included serving as the Secretary-Treasurer and then Chairperson for the American Academy of Pediatrics Section on Urology. He has been a member and then Chairperson of the American Urologic Association’s National Medical Student Curriculum Committee, a position presently held.

Stephen V. Jackman, MD
Dr. Stephen Jackman is Professor of Urology and Residency Program Director at the University of Pittsburgh Medical Center. He has led the residency since 2004. Clinically he specializes in minimally invasive surgery for cancer and stone disease. Research interests include kidney stones, imaging and surgical treatment of cancer.

David F. Jarrard, MD
David Frazier Jarrard, MD is a tenured Professor and Vice Chair in Urology at the University of Wisconsin and an Associate Director in the UW Carbone Cancer Center. He obtained his BA and MD from the University of Virginia and completed a urologic surgery residency at the University of Chicago Hospitals. He was a fellow in urologic oncology at the Brady Urologic Institute of the Johns Hopkins Hospital. He currently leads the division of Urologic Oncology, and holds the John Livesey Chair in Urologic Oncology. Dr. Jarrard has served on numerous American Urological Association committees and is President-Elect for the North Central Section. He is Past President for the Society for Basic Urologic Research (SBUR) and serves on the boards of the Society for Urologic Oncology (Member at large) and Society for Academic Urology (Treasurer). He has active basic science and translational research interests supported through the National Institutes of Health and the Department of Defense Prostate Cancer Research Programs examining epigenetic factors underlying prostate cancer development and novel approaches to treating advanced disease. His clinical work concentrates on advanced urologic oncology and improving cancer detection and outcomes. Awards include the SBUR Young Investigator and Distinguished Service Awards, Madison Magazine’s ‘Best Physicians in Wisconsin,’ Castle Connolly “Top Doctors,” "Best Doctor in America”® and the Society for Urologic Oncology Distinguished Service Award. Dr. Jarrard has published numerous chapters, articles and abstracts in the field of prostate cancer.

Thomas W. Jarrett, MD
Thomas W. Jarrett, MD is the Chairman of the urology department at The George Washington University Hospital. He is board certified in urology and specializes in minimally invasive surgery, including laparoscopic, robotic, uroteroscopic, percutaneous and image-guided therapies. He is a pioneer in the use of minimally invasive techniques for the treatment of multiple diseases of the urinary tract, including kidney, testis, bladder and prostate cancer.

Dr. Jarrett graduated magna cum laude from Duke University and received his Medical Degree from Emory University. His postgraduate training was completed at Cornell University at the New York Hospital/Cornell Medical Center and Memorial-Sloan Kettering Cancer Center. Dr. Jarrett was a visiting fellow in urology/ultrasonography in Salzburg, Austria and completed his fellowship in endourology and laparoscopy at Long Island Jewish Medical Center. He previously served as the Chief of the Division of Endourology and Laparoscopy at the Johns Hopkins Hospital and Chief of the Division of Urology at Johns Hopkins Bayview Medical Center.
Mark L. Jordan, MD, FACS, FRCS(C)
Chief of Urology, VA Long Beach, Professor of Urology and Residency Program Director, UC Irvine. Dr. Mark Jordan is an alumnus of the University of Toronto Medical School (1977) and the Gallie training program in Surgery and Urology (1983). He was elected Junior AOA in 1976. Following his residency in Toronto, he did fellowships at the Cleveland Clinic (1983-1984) and University of Minnesota (1984-1986) before returning to the University of Toronto as a Faculty member in 1987. In 1989 he was recruited by his former fellowship director Dr. Richard L. Simmons to join the faculty at the University of Pittsburgh Medical School where he served for 14 years (1989-2003) advancing to the position of Professor of Surgery with Tenure, and Director of the Urologic Renal Transplant Division at the University of Pittsburgh Medical Center and the Veterans Administration Medical Center in Pittsburgh. After 14 years at the University of Pittsburgh, Dr. Jordan was recruited to assume the position of Harris L. Willits Chair and Program Director of the Urology Division in the Department of Surgery at Rutgers-New Jersey Medical School in July 2003. At that time he was also appointed Professor of Surgery (Tenured) at New Jersey Medical School and Chief of Urology at University Hospital in Newark, NJ.

In December 2013, Dr. Jordan joined the Department of Urology at University of California, Irvine as Professor and Residency Program Director and Chief of Urology at the Long Beach VA Medical System. He currently serves as the SAU representative to the AAMC, on the AUA Education Council, on the VA National Surgery Board, and on the Program Committee for the Council for Faculty and Academic Societies (CFAS).

Byron D. Joyner, MD, MPA, FAAP, FACS
Dr. Joyner graduated from Princeton University and received his Medical Degree from Harvard Medical School in Boston, Massachusetts. He completed his residency at the Massachusetts General Hospital and then performed a research fellowship at the Boston Children’s Hospital. He had an additional 2 years of pediatric and reconstructive urology training at the Hospital for Sick Children in Toronto, Canada. He has been on faculty at the Seattle Children's Hospital since 2001 following a 4-year commitment in the US Army where he was a Lieutenant Colonel and Chief of Pediatric Urology at Madigan Army Medical Center. In 2009, he received a Master in Public Administration, which he felt organized many of his principles of executive leadership in medical education.

Dr. Joyner’s passion is learning about and designing better ways to improve graduate medical education (GME). In his role as the program director for the Department of Urology for 12 years, he was responsible for the core curriculum and competency-based training of the urology residents at the University of Washington. In 2014, he became the Vice Dean for Graduate Medical Education and the Designated Institutional Official (DIO). In this role, he is responsible for the educational learning environment for over 1400 ACGME-accredited residents and fellows in 110 different training programs. Recently, the GME Office has acquired oversight for the nearly 120 non-accredited fellowship programs. In addition to these duties, Dr. Joyner is charged with the operations and continued accreditation of all of these programs, as well as building GME and securing resources for the trainees in the WWAMI region including Washington, Wyoming, Alaska, Montana and Idaho.

His training in the UW Teaching Scholar's program has allowed him to create new approaches to teaching trainees about interpersonal and communication skills and professionalism. In fact, his efforts have been rewarded with the 2005 Julian S. Ansell Teaching award. He was honored with the coveted Parker J. Palmer Courage to Teach Award in 2011. In January 2014, he was named one of the top 10 Medical Educators in the US by Black Health Magazine. In 2017, he was the recipient of the Diversity Mentorship Award for the University of Washington School of Medicine for his work with faculty, residents, fellows of color and disadvantaged or disenfranchised medical students.

Dr. Joyner continues to work with pediatric urology patients and their families, and trains residents and fellows in this specialty. He has been named Top Doc in Pediatric Urology for Seattle Metropolitan Magazine for the past 5 years, consecutively.

Louis R. Kavoussi, MD
Dr. Kavoussi is a world-renowned surgeon recognized for his expertise in minimally invasive approaches. He has helped pioneer several new operative techniques which have become standard of care. He has also helped train many academic urologists around the world.

Dr. Kavoussi completed his undergraduate degree at Columbia University and his Medical Degree at the State University of New York at Buffalo. He obtained his urologic training at Washington University of St. Louis and directly following residency was named Chief of Urology at the Jewish Hospital of St. Louis.

Dr. Kavoussi has made many important contributions to urology. He was part of several first teams that developed many of the minimally invasive approaches we use today including the laparoscopic nephrectomy, laparoscopic donor nephrectomy and laparoscopic prostatectomy. These and other contributions have been documented in over 400 publications. He has edited multiple texts including his role as a co-editor of Campbell-Walsh Urology.

He helped found the first robotics laboratory dedicated to urological applications and was the individual who developed telerounding and teleinteraction with patients for which he was a Smithsonian Computerworld Medalist. His contributions to the field of urology earned him the Golden Cystoscope Award of the American Urological Association and The Lifetime Achievement Award from the American Kidney Foundation.

Dr. Kavoussi has mentored over 35 fellows in minimally invasive surgery who are academic leaders around the world. This achievement was recognized through him being awarded the Endourology Society Mentoring Award in 2014.

Jessica Kreshover, MD
Jessica Kreshover, MD, MS is a fellowship trained specialist in minimally invasive urologic surgery. She is an Associate Professor at the Zucker School of Medicine at Hofstra/Northwell, Director for Medical Student Urologic Education in the Department of Urology, and Associate Program Director for the Urology Residency Program.

Dr. Kreshover came to medicine after a short but successful career in engineering. She started undergraduate school at the University of Pennsylvania and subsequently transferred to the University of Virginia where she was awarded a scholarship for the outstanding woman in engineering. She then pursued graduate studies and completed a Master’s of Science in Systems Engineering on a full scholarship before shifting her emphasis to medicine. Dr. Kreshover earned her MD from the University of Virginia in 2007. She completed residency in urology at Boston University Medical Center which included training at the Boston Children’s Hospital and the Boston Veterans Affairs Hospitals.
Cheryl T. Lee, MD  
Dr. Lee is Professor and Chair of the Department of Urology at The Ohio State University Wexner Medical Center where she holds the Dorothy M. Davis Endowed Chair in Cancer Research. Education is an important part of Dr. Lee's professional practice. In particular, she has been active in the education of urologists. She maintains a postgraduate course at the annual meeting of the AUA and has served on the ABU Oral Board Examination Committee, the AUA Education Council, the AUA Program Committee, the American Board of Urology /AUA Examination Committee, and the Oncology Knowledge Assessment Test Committee of the Society of Urologic Oncology (SOU). Her medical professional focus is dedicated to advancing the care of bladder cancer patients through advocacy, education and research.

Gary E. Lemack, MD  
Dr. Lemack is Professor of Urology at The University of Texas Southwestern Medical Center, and Director of the Urology Residency Program. He has a secondary appointment in the Department of Neurology. He is also the Program Director for the Fellowship in Female Pelvic Medicine and Reconstructive Surgery at UT Southwestern. After graduating from Cornell University Medical College, he completed his urologic residency at The New York Hospital – Cornell Medical Center, and then a 2 year fellowship female pelvic medicine and reconstructive surgery at UT Southwestern, where he has been on the faculty since 1999. His clinical practice focuses on care for women with incontinence, pelvic organ prolapse and other refactory bladder disorders. His clinical research has focused on improving incontinence care for men and women with neurological conditions such as multiple sclerosis and spinal cord injury. Much of his work has involved collaborations with the NIH/ NIDDK-sponsored Urinary Incontinence Treatment Network. He currently has authored or co-authored over 130 peer-reviewed publications and over 20 book chapters.

Dr. Lemack serves on the editorial board for the Journal of Urology and is an expert reviewer for over 10 urology journals. He is currently the President for the Society of Urodynamicists, Female Pelvic Medicine and Urogential Reconstruction (SUFU), and was recently appointed as a Trustee of The American Board of Urology. He is currently a member of the Incontinence Guideline Panel for the European Association of Urology, and recently served as the Vice Chair of the Stress Incontinence Guidelines Panel for the American Urogological Association. He currently serves on the Guidelines Panel for the Neurogenic Lower Urinary Tract Dysfunction for the AUA. Dr. Lemack was also named as a trustee for the American Board of Urology in 2017.

Deborah J. Lightner, MD  
A professor of urology at the Mayo Clinic with an interest in lower urinary tract voiding dysfunction, both neuropathic and nonneuropathic, she has a subspecialty certification in Female Medicine and Reconstructive Surgery. She has been practicing Urological Surgeon on staff at Mayo Clinic College of Medicine for 22 years, and is now a professor of urology. Proud that other women are pouring into urology, she was the first medical student from the University of Minnesota and the first female urologist on staff at Mayo Clinic.

Dr. Lightner was Board-appointed to the Mayo Clinic Office of Staff Services, a resource and referral program for consultant staff and their families for personal and professional issues, from its initiation in 2002. She became Medical Director of that Office in 2006, relinquishing that directorship to become a Sit-with in January 2016. She has been a member of the Career and Leadership Development Committee at Mayo Clinic since 2006 and a coach for career leadership since 2002.

Dr. Lightner has had a long-standing interest in evidence-based medicine and Clinical Guidelines. Serving on American Urological Association (AUA) Practice Guidelines Committee (PGC) from 2003 to 2009, she Chaired that Committee from 2014 through May 2017, overseeing 28 Guidelines, as well as stewarding new Guidelines and Best Practice Statements.

She has received the AMA Women Physician Congress Physician Mentor Recognition Program Award in 2010, the Distinguished Service Award of the AUA in 2012 and Outstanding Faculty Member for the Mayo School of Continuous Professional Development in 2012.

Robert Marcovich, MD  
Dr. Robert Marcovich is Associate Professor of Urology and Residency Program Director at the University of Miami Miller School of Medicine. He completed undergraduate and medical school at Brown University, residency at the University of Michigan, and endourology fellowship at Long Island Jewish Medical Center. His primary clinical and teaching interests are in the treatment and prevention of urolithiasis.

Brian R. Matlaga, MD, MPH  
Dr. Brian Matlaga is the Stephens Professor of Urology at the Johns Hopkins University School of Medicine, and also serves as the Director of Ambulatory Care for the James Buchanan Brady Urological Institute. Dr. Matlaga received his undergraduate degree from Dartmouth College, and his Medical Degree and a Master’s of Public Health degree from Tulane University. He then completed his internship in surgery and residency in urology at Wake Forest University; his subsequent fellowship at Indiana University was supported by an American Foundation for Urologic Disease Research Scholarship.

Dr. Matlaga is an internationally recognized expert in the medical and surgical management of patients with urinary stone disease, and he is the Director of Stone Disease for the Brady Urological Institute. A frequent contributor to the medical press, Dr. Matlaga’s research has received both national and international awards; in 2014, he was the recipient of the Endourological Society’s Arthur D. Smith Endourology Lectureship, which was given in recognition of accomplishments in the first ten years of his career.

Dr. Matlaga is an independently funded investigator, and presently is the Principal Investigator for the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) Urologic Diseases in America project. Dr. Matlaga sits on numerous editorial boards as well as advisory committees and guidelines panels for the American Urological Association, the American Board of Urology, the Endourological Society, and the National Institutes of Health. Dr. Matlaga coordinates the enterprise-wide research program at Johns Hopkins Aramco Healthcare, a joint venture between Johns Hopkins Medicine and Saudi Aramco that is based in the Kingdom of Saudi Arabia.

Stephen Y. Nakada, MD, FACS  
Stephen Y. Nakada, MD, FACS, FRCS(Glasg) is Professor and Chairman of the Department of Urology and the David T. Uehling Chair of Urology at the University of Wisconsin School of Medicine and Public Health in Madison, WI. He received his Medical Degree from the University of Rochester School of Medicine and Dentistry, and completed his residency training at Strong Memorial Hospital in Rochester, New York. Dr. Nakada went on to complete his endourology fellowship at Washington University prior to joining the faculty at the University of Wisconsin in 1995. Dr. Nakada has been the Chairman of Urology in Madison since 2001. Dr. Nakada’s research focuses on urolithiasis and renal aspects of minimally invasive urology. He has authored or co-authored over 250 scientific articles, 50 book chapters, and has edited more than 10 textbooks in those areas. In 2004, Dr. Nakada received the Gold Cystoscope Award from the AUA and in 2017 the AUA Distinguished Service Award. He is currently an editorial consultant for Urology Times and an assistant editor of the Journal of Endourology. Dr. Nakada is presently serving in leadership roles including the R.O.C.K. Society, Society of Academic Urologists and the Endourological Society. Currently, Dr. Nakada is President. Elect of the American Board of Urology and a member of the Advisory Council in Urology to the American College of Surgeons. Dr. Nakada is an active member of the American Association of Genitourinary Surgeons and the Clinical Society of Genitourinary Surgeons, among other societies.
Joel B. Nelson, MD

Joel B. Nelson received a BA in Philosophy at the University of Pittsburgh in 1983. He receiving his Medical Degree in 1988 and completed his urology residency in 1994, both at Northwestern University Medical School. He was awarded an American Foundation for Urological Disease Scholarship for fellowship training in basic research and oncology at the Brady Urological Institute at Johns Hopkins from 1994 to 1996. In 1999, Dr. Nelson was appointed the first Frederic N. Schwentker Professor and first Chairman of the newly formed Department of Urology at the University of Pittsburgh School of Medicine. Under his leadership, the Department has grown from five to over 40 full-time faculty members, with a several-fold increase in clinical volumes and research funding, placing it in the top ten nationally for NIH funding. Dr. Nelson’s area of clinical interest is focused on prostate cancer and he has performed over 3000 radical prostatectomies. His research interest has been on novel treatments for advanced prostate cancer, most notably as the first to identify the endothelin axis as a possible target for treatment in prostate cancer bone metastases.

Dr. Nelson has published over 180 papers and chapters and is a member of several editorial boards. He is the member of the American Association of Genitourinary Surgeons, the Clinical Society of Genitourinary Surgeons and a recipient of many clinical and basic science awards. In October 2014, he was appointed Senior Medical Director of the University of Pittsburgh Physicians and in January 2017, Chief Clinical Officer, Health Services Division, UPMC. Dr. Nelson was elected to be a trustee of the American Board of Urology by the American Urological Association.

Victor W. Nitti, MD

Victor W. Nitti, MD is Professor of Urology, Obstetrics and Gynecology, and is the Vice Chairman of the Department of Urology at New York University Langone Medical Center. He is also the head of Female Pelvic Medicine and Reconstructive Surgery, and is the fellowship director for that ACGME accredited program. He is a graduate of the University of Medicine and Dentistry of New Jersey and did his urology residency at SUNY Downstate in Brooklyn, NY. He then completed a fellowship in female urology, neuromodulation and reconstructive urology at UCLA.

He is an authority in urodynamic techniques, medical and surgical therapies for urinary incontinence, pelvic organ prolapse, female pelvic reconstructive surgery and voiding dysfunction. He has authored over 130 peer-reviewed articles as well as and over 60 book chapters on these subjects. He is the editor of two text books: Practical Urodynamics, published by W. B. Saunders, and Vaginal Surgery for the Urologist, published by Elsevier.

Dr. Nitti is a Fellow of the American College of Surgeons (ACS) and the American Board of Urology (ABU), is a member of the American Urological Association (AUA), the Society for Urodynamics, Female Pelvic Medicine and Urogenital Reconstruction (SUFU), The American Urogynecologic Society (AUGS), the International Continence Society (ICS) and the 1st, 2nd, 3rd, 4th and 5th International Consultation on Incontinence (ICI). He currently holds the position of Chair, American Urogynecologic Association Office of Education. He currently serves on the FPMRS Division of the American Board of Obstetrics and Gynecology and on the Board of Directors for the New York Section of the AUA. Dr. Nitti is on the editorial boards of Neurourology and Urodynamics, the Journal of Female Pelvic Medicine and Reconstructive Surgery, and the International Urogynecology Journal.

David F. Penson, MD, MPH

David F. Penson, MD, MPH is the Hamilton and Howd Chair in Urologic Oncology, Director of the Center for Surgical Quality and Outcomes Research and Professor and Chair of the Department of Urologic Surgery at Vanderbilt University. He obtained his MD from Boston University and completed his urology residency at UCLA Medical Center in Los Angeles. He then was awarded a Robert Wood Johnson Clinical Scholar fellowship at Yale University and also obtained an MPH at Yale. He currently maintains a clinical practice in urologic oncology at the Vanderbilt-Ingram Cancer Center. His specific research interests include the comparative effectiveness of treatment options in localized prostate cancer and the impact of the disease and its treatment on patients’ quality of life. He has received federal grant funding from the National Cancer Institute, the US Agency for Healthcare Research and Quality, the Centers for Disease Control and Prevention and the Patient-Centered Outcomes Research Institute. He previously chaired the National Institutes of Health’s Health Services Outcomes and Delivery (HSOD) study section, which reviews almost all health services research grant submitted to the NIH. He also maintains a strong interest in health policy and quality improvement.

John R. Potts, III, MD

Dr. Potts was raised in the town of Yale, Oklahoma and attended C.E. Donart High School in Stillwater, Oklahoma. He attended Oklahoma State University on a track scholarship and graduated with a BA with honors in History. He then attended the University of Oklahoma College of Medicine from which he graduated in 1977.

He did his residency in surgery at the University of Oklahoma Health Sciences Center in Oklahoma City under the direction of Dr. G. Rainey Williams. During that residency he did a one-year laboratory fellowship in surgical gastroenterology at the University of Utah under the direction of Dr. Frank Moody. Following his residency, he did a two-year fellowship in surgery for portal hypertension under the direction of Dr. W. Dean Warren at Emory University.

He joined the faculty of the University of Texas Medical School – Houston in 1991. There, he served as Program Director in Surgery for 21 years, as Chair of the Graduate Medical Education Committee for 16 years, as Assistant Dean for GME for ten years and as Designated Institutional Official.

He is a Fellow of the American College of Surgeons, the Southern Surgical Association, the American Surgical Association, the Southeastern Surgical Congress and the Western Surgical Association.

In 2012, he became the Senior Vice-President for Surgical Accreditation at the Accreditation Council for Graduate Medical Education (ACGME), in which role he has oversight over the ten surgical specialties and 23 surgical subspecialties which are accredited by the ACGME.

Charles R. Pound, MD

Dr. Charles Pound has served as the Urology Division Chief at The University of Mississippi for 13 years. As the W. Lamar Weems Professor of Urology, his practice and clinical research are focused in the area of urologic oncology. He and his wife Reagan were raised in Mississippi and have 3 college aged sons.
Raj S. Pruthi, MD, MHA, FACS  
Dr. Raj Pruthi, Distinguished Professor and Chair of the UNC Department of Urology, graduated from Stanford College and Duke Medical School. He completed his residency in urologic surgery at Stanford University. During his time at Stanford, Dr. Pruthi spent one year as a fellow specializing in prostate cancer in the Department of Urology. He joined the Division of Urology at UNC in 2000 and in 2011 was appointed Division Chief. In July 2013, Dr. Pruthi became Chairman of the newly established Department of Urology.

Dr. Pruthi specializes in urologic oncology and robotic surgery. Committed to compassionate, comprehensive and innovative patient-centered care, he has been consistently selected to be named among the Best Doctors in America. Dr. Pruthi’s research interests are in urologic oncology, including bladder, kidney and prostate cancer. His research has included the study of inflammatory pathways in the development and treatment of prostate, bladder, and kidney cancers as well as the development and study of minimally-invasive and robotic treatments for urologic malignancies. In addition he is a leader in the study of workforce issues in urology.

Dr. Pruthi currently serves in a number of institutional, regional, and national teaching and professional capacities. He serves as Chair for the American College of Surgeons’ Surgical Forum for Urology and also serves on the organization’s Committee on Video-based Education. Dr. Pruthi serves as a consultant and reviewer for numerous publications and is on the editorial board for several journals including the Journal of Urology, British Journal of Urology, World Journal of Urology, Prostate Cancer and Prostatic Diseases, amongst others.

Lee Richstone, MD  
Lee Richstone, MD is the Chief of Urology at the Long Island Jewish Medical Center, and is Vice Chairman of Urology for the North Shore – Long Island Jewish Health System.

Dr. Richstone completed medical school at the Cornell University Medical College in New York City. There he won early acceptance into Alpha Omega Alpha (AOA), the prestigious national medical honor society. He pursued his urologic training and chief residency at New York Presbyterian (Weill-Cornell) and Memorial Sloan Kettering hospitals. Dr. Richstone completed his fellowship training in urologic laparoscopic and robotic surgery and joined the North Shore Long Island Jewish Health System in 2007 as Director of Laparoscopic and Robotic Surgery.

Dr. Richstone is an internationally recognized urologic surgeon who has helped pioneer laparoscopic and robotic surgery for cancer of the prostate, kidney and bladder, as well as for various forms of urinary obstructions. He has over 70 peer-reviewed publications in leading national and international journals including The Journal of Urology, Urology, The British Journal of Urology, The Journal of Endourology, Cancer, and Cell.

Dr. Richstone is the first to perform robotic radical cystectomy on Long Island, and regularly performs neobladder reconstructions completely robotically through small incisions. He has performed hundreds of robotic surgeries for prostate, kidney and bladder cancer, with a focus on preserving urinary continence and sexual function. Dr. Richstone has also pioneered Laparoendoscopic Single Site Surgery (LESS), where entire laparoscopic operations are performed only through the belly button, with no other scars. In fact, Dr. Richstone is one of only a few surgeons in the United States to have performed single site partial nephrectomy and prostatectomy.

Dr. Richstone is a member of the Society of Urologic Oncology (SOU), the America Urological Association (AUA), and the Endourological Society (EUS). Dr. Richstone is the recipient of numerous honors and awards, including acceptance into Alpha Omega Alpha (AOA), the E. Darracott Vaughan Prize for Excellence in Urology (2000), The Ferdinand C. Valentine Urology Essay Prize (First Place, 2005), The American Urological Association-Ambrose Reed Socioeconomic Essay Contest (First Place, 2005), and the Weill-Cornell Distinguished House Officer Award (2005). Dr. Richstone was awarded the Stryker and Nagamatsu Fellowship (2007), and won first prize at the Endourology Society Fellowship Paper Award the same year. Dr. Richstone won first prize at the AUA Research Foundation for Outstanding Research awarded at the 2010 AUA National Meeting in San Francisco.

Chad W. M. Ritenour, MD  
Dr. Chad W. M. Ritenour is currently Vice Chair of Education and Faculty Affairs, and Professor in the Department of Urology at Emory University School of Medicine in Atlanta, GA. He is also the Chief Medical Officer for Emory University Hospital. He teaches widely in both undergraduate and graduate medical education in his role as Residency Program Director, and has published multiple original and review articles in the medical literature. As Director of the Division of Men’s Health/Infertility and General Urology, he has worked to develop efficient care processes, including use of video-assisted consents for the urologic patient. He previously served as Interim Chairman for the Emory Department of Urology in 2010-2013.

Dr. Ritenour attended the University of Virginia as an Echols Scholar and subsequently received his Medical Degree from the Medical College of Virginia before completing his urological surgery training at Emory University. In 2010, he served as a Fellow in the American Urological Association-Japanese Urological Association Academic Exchange Program. He was also a Fellow in the Woodruff Leadership Academy in 2005.

Mathew D. Sorensen, MD  
Dr. Sorensen is an Associate Professor in the Department of Urology at University of Washington. In 2012 he was named the Director of the Comprehensive Metabolic Stone Clinic at the Puget Sound VA Hospital. He is a surgeon, educator, and researcher with a specialty interest in advanced laparoscopic surgery, endourology and the medical and surgical management of kidney stones.

He is primarily responsible for the oversight and management of the residency training program. This innovative training program is focused on training the next generation of leaders in urology.

Dr. Sorensen’s research interests have focused on epidemiologic, outcomes, and health services-related projects, as well as basic science and translational ultrasound research. Through a strong collaboration with the Applied Physics Laboratory, they are working to improve the detection and sizing of kidney stones with ultrasound. The group has also developed two ultrasound-based therapies, using ultrasound to relocate or push kidney stones transcutaneously and a novel device that fragments stones with ultrasound bursts.
Robert M. Sweet, MD
Dr. Sweet is a professor of urology at the University of Washington. With a focus on treating and preventing kidney stones, he serves as a provider as well as the Medical Director of the University of Washington Medicine Kidney Stone Center.

Dr. Sweet is also Executive Director of both the Washington Wyoming Alaska Montana Idaho (WWAMI) Institute for Simulation in Healthcare (WISH) and the UW Center for Research in Simulation Technologies (CREST). He is the Principal Investigator of numerous simulation research and development projects including the Combat Casualty Training Consortium and The Advanced Modular Manikin.

With a vision of training leaders in Surgical Simulation, he helped develop the Surgical Simulation Fellowship Accreditation Program for the American College of Surgeons Division of Education. He also founded and directed International Fellowship Programs at both the University of Minnesota and the University of Washington. Previously, Dr. Sweet was an AUA Scholar in Simulation Science at the University of Washington and holder of an endowed Chair for Simulation Science at the University of Minnesota.

Dr. Sweet has been involved in the founding of two major Simulation Centers: The University of Minnesota’s SimPORTAL, and what is now known as WISH at the University of Washington.

Martha K. Terris, MD, FACS
Martha K. Terris, MD is Professor and Chief of the Section of Urology, holding the Witherington Distinguished Chair in Urology at the Medical College of Georgia/Augusta University. She also serves as program director for urology residency training. She received her general surgery training at Duke University, and urology residency and fellowship at Stanford University. She provides the full spectrum of urologic oncology patient care. She has served on the urology Residency Review Committee, and is currently Trustee of the American Board of Urology. Her research focuses on risk factors for the development and progression of urologic malignancies.

Simone Thavaseelan, MD
Dr. Thavaseelan completed her fellowship training at Brown University in Minimally Invasive Urology/Endourology/Robotics in 2011. She joined as full time faculty in urology and serves as Chief of Urology at the VA Hospital, overseeing all clinical care and resident training. She is actively involved in resident training at all clinical sites and is an active participant for staffing urology clinic cases. Her interests including stone disease, endourology and robotics. Dr. Thavaseelan is a member of the urology staff at Rhode Island Hospital, The Miriam Hospital, Providence VA Medical Center, Memorial Hospital of Rhode Island and Women & Infants Hospital.

Alan J. Wein, MD, PhD (hon), FACS
Dr. Wein is Founders Professor and Emeritus Chief of Urology and Director of the Residency Program in Urology at the Perelman School of Medicine of the University of Pennsylvania and the Health System. He obtained his MD training in surgery, basic urologic research and clinical urology at Penn. He holds an honorary PhD from the University of Patras, Greece and was conferred an Honorary Professorship by the Institute of Urology, Russian Ministry of Health. His clinical and research interests include physiology/pharmacology of the lower urinary tract, evaluation and management of urinary incontinence and all types of lower urinary tract dysfunction, problems with prostate enlargement and the evaluation and management of prostate, bladder and kidney cancer.

He has authored or co-authored hundreds of papers and book chapters, and holds multiple editorial positions on scientific journals and has edited or co-edited over 30 books. Dr. Wein is editor-in-chief of the gold standard textbook in urology, Campbell-Walsh Urology.

J. Stuart Wolf, Jr., MD, FACS
After receiving his MD from Northwestern University, Dr. Wolf completed urology residency at UCSF and then an endourology/laparoscopy fellowship with Ralph Clayman. He joined the University of Michigan in 1996, and over the ensuing 20 years he served as the Director of the Division of Endourology, the Director of the Endourology/Laparoscopy Fellowship, and the Associate Urology Department Chair for Surgical Services. In 2016 he assumed his current role as Associate Chair for Clinical Integration and Operations of the Department of Surgery and Perioperative Care at Dell Medical School of the University of Texas at Austin.

Dr. Wolf has served on the Executive Committee of the Michigan Urologic Society and the Board of Directors of the Endourological Society. He formerly chaired the AUA Practice Guidelines Committee, and is the inaugural chair of the AUA Science & Quality Council. At the University of Michigan, Dr. Wolf received the Silver Cystoscope Award for Urology Residency Teaching Excellence 3 times (1999, 2002 and 2005). He was appointed the inaugural David A. Bloom Professor of Urology in 2006. The Department of Urology awarded him the Faculty Service Award in 2011 and the Outstanding Achievement Award in 2012. He was inducted into the League of Educational Excellence of the University of Michigan Medical School in 2015, and that year he received the Program Director’s Award from the Endourological Society. In 2010, Dr. Wolf was elected to the American Association of Genitourinary Surgeons.

An author of more than 280 peer-reviewed articles and 150 invited publications, Dr. Wolf serves or has served on the editorial boards of 11 journals. His scholarly work has been recognized by awards and/or research grants from the American Foundation for Urologic Disease, the Department of Veterans Affairs, the Endourological Society, the American Society of Transplant Surgeons, the American Urological Association and 2 sections of the American Urological Association.
SAVE THE DATE

SAN FRANCISCO | MAY 18 – 22, 2018
SAU 2018 ANNUAL MEETING AT THE AUA
