Urology 2030: Charge

1. *Review the commonly used, available training materials and guidelines for Urology residents*

Urology 2030: Charge

2. *Develop practical, generalizable and effectively measurable curriculum so that urology residents are training for the future of healthcare in the US to include concepts and training in:*
 - *Quality improvement*
 - *Patient safety*
 - *Healthcare policy*
 - *Wellness*
 - *Alertness and fatigue management*
 - *Clinical responsibility*
 - *Life-long curiosity*

1. Common Training Materials

- **AUA Core curricula** served as the foundation
- **AUA Guidelines** supplement
- **Campbell's Urology** and **AUA Updates** used selectively
 - Often too detailed and inefficient
- **Journal club**
- **Practice test questions**
 - SASP, Qstream, Campbell's supplement book

1. Common Training Materials

- Lacking curricula, but highly desired
 - **Quality improvement**
 - **Patient safety**
 - **Healthcare policy**
 - **Wellness**
 - **Fatigue mitigation**
 - *Practice management*
 - *Technical skills*
 - *Communication*

ACGME Common Program Requirements (VI)

What We Do

Designated Institute
Officials

Program Director
Coordinators

2. Curricula Development

Task force proposed two Needs-Assessment surveys

1. Survey of PDs to prioritize these curricula and any additional critical topics
2. Resident survey to assess best practices for methods of delivery of these curricula

Urology 2030: Extra credit

- Push to standardize and centralize didactic education
 - Experts in the field
 - Correct information
 - High quality delivery method
- Expand Core curriculum include these new topics
 - Content experts develop most effective curricula
- Propose a schedule, topic-by-topic, rolling ~2 year
- SAU/AUA approved spaced learning questions

Urology 2030: Best Practices

SAU advised best practices for resident didactic curricula

- Topic-based, weekly, video and interactive, periodic assessments and practice questions
- Completely protected time for the participating residents to maximize learning

Thank you

- SAU for the opportunity to participate
- Task force members
