

SAU Annual Meeting Winter 2027 Program Co Chairs

About the Role

The SAU Annual Meeting Winter 2027 convenes over 250 attendees to discuss matters related to academic urology with a focus on education. The meeting includes updates from AUA, SAU, ABU, RRC, ACURE, RFJUS, SWIU, expert talks, moderated panels, grant updates, facilitated round table discussions and question and answer time. The program Co Chairs develop a timely program agenda of value of membership to drive attendance and amplify engagement in the SAU mission. SAU attempts to select diverse Program Co Chairs to include program directors, associate program directors and chairs across the country to balance representation. They will liaison closely with the SAU Chair of the Program Committee who is the incoming President Elect as well as Veritas Executive and Associate Directors.

Responsibilities Include:

- Working under the oversight of the SAU Chair of the Program Committee who is the incoming President Elect to develop the program agenda for the 2 day SAU Annual Meeting in the Winter of 2027.
- Review past programs and feedback, develop themes and topics relevant to the society and audience, solicit and invite speakers and moderators.
- Collaborate with Veritas staff to maintain agenda, address changes, provide communication to stakeholders, complete CME requirements.
- Engage with industry partners to the extent that is relevant to the programming agenda

Desired Qualifications:

- Active SAU member in good standing.
- Demonstrated experience in academic urology, medical education, research, educational or clinical scholarship.
- Prior attendance at SAU meetings and prior involvement in SAU mission including task forces, committees, speakerships at meetings.
- Strong vision for themes and topics and diverse speakers of interest for the Winter meeting which focuses on academic urology, residency education, faculty development and reaches a wide audience of chairs, program directors, faculty, and program coordinators with a newly launched abstract section.

- Strong organizational skills, responsiveness to email, long term planning and consistent follow up.

SAU's Mission

The Society of Academic Urology is dedicated to advancing urologic education, research, and leadership by fostering academic innovation and excellence. Through collaboration, mentorship, and advocacy, SAU supports the growth and success of academic urology programs and educators.
